Dear Mister Blom,

By this letter I would like to show my appreciation for the professional TMA tool your company provided to our company (Nunhems). The tool works since some years perfect in a global environment as the Nunhems Company is.

~~This internet based tool brought so far a high validity, as applicants could recognize themselves in the outcome of the competences for approximately 85 up to 90%. The global web based tool is easy and quick to work with.~~

Beside this I like to mention that the support your company provided was excellent and professional.

I will be happy to recommend this tool to other companies, who are interested in working together with E-hrm vision.

Sincerely,
NUNHEMS NETHERLANDS BV

J.P.H.M. Cauberg
